Barnett Therapy Services 795 Executive Drive, Oviedo, Florida 32765 Phone: 407-325-0427

## Notice of Therapy Observation

As part of our commitment to further the field of Speech Language Pathology, we have been asked at times to have a student **considering or pursuing a career in Speech Language Pathology**, observe a therapy session for the purposes of awareness and education or to gain needed hours of observation towards a degree.

The student will be with an employee of Barnett Therapy Services at all times and will not be left alone with children. The student will be able to see the goals and objectives related to this therapy session and will have signed an Observation Expectations form regarding Professionalism as well as Confidentiality. You may view this form at any time!

In addition, new employees would need to sit in on some therapy sessions to observe what it is exactly that we do and that our locations and families have come to expect. It's what makes Barnett Therapy Services different!

I understand that I may revoke this authorization, in writing, at any time. A photocopy of this signed form is acceptable and may be honored as the original.
